Terms of Trade

Summary

APPROVED ACCOUNT CUSTOMERS

Our Trading Terms are strictly net 30 days.

OVERDUE ACCOUNTS

If payment is not received within 45 days from statement date, the customer's account will be placed on hold.

If payment is not received within 60 days from statement date, an overdue account fee of 1.5% will be applied to the balance of the account that exceeds 60 days from statement date.

If payment is not received within 90 days from statement date, the account will be placed in the hands of a collection agency.

CASH CUSTOMERS

Goods will be dispatched upon receipt of your payment.

JAI Products retains the right to withdraw credit at anytime.

BROKEN PACKS

Acceptance of broken pack orders is at the discretion of JAI Products. Orders placed for products that are less than the pack size listed in the catalogue will incur a 20% surcharge calculated on the list price.

CREDIT CARD PAYMENTS

A 1.5% surcharge is applied on all credit card payments.

CLAIMS

Any defective or faulty goods will be replaced. Claims are limited to the cost of the replacement goods plus any freight incurred. Faulty goods will be credited upon return to JAI Products.

PRICING

All prices are subject to change without notice.

BANK ACCOUNT DETAILS

Internet banking and direct deposit details are:

Bank: ANZ Willoughby North

BSB: 012 474

Account: 4095 13223

Please indicate your trading name or invoice number so we may credit your account correctly.

RETENTION OF TITLE

Ownership, title, and property of the Goods remains with JAI until payment in full for the Goods, and all sums due and owing by the Customer to JAI on any account, has been received.

FREIGHT

Freight is free into store for orders over \$900 excluding GST to the metropolitan areas of: Sydney, Melbourne, Brisbane, Gold Coast, Perth, and Adelaide.

MADE TO MEASURE

Goods must be inspected upon receipt to ensure that they have been made to your requirements and damage has not occurred **in transit**.

Any issues must be reported to JAI Products head office within 48 hours of receipt of goods.

*For a more detailed Terms of Trade please contact the head office.

WHY THE PRICING IS DIFFERENT FOR REVEAL FIT AND FACE FIT:

Face Fit requires a second back cover profile for each side channel. Reveal Fit only uses one profile so we have passed on this saving.

INCLUSIONS	NOT INCLUDED
<ul style="list-style-type: none"> Geared or Direct Drive Chain Mechanism. Stainless Steel Chain Loop - size to be specified. Tube cut to size and of appropriate type for the blind width. Side channel and base bar fitted with a brush strip. Components will be cut according to the specified dimensions and assembled ready for fabric fitting and installation. Spline for base bar provided. 	<ul style="list-style-type: none"> Fabric skin is to be supplied and fitted by the customer. Any motor options selected and required accessories are not included in the system pricing. These will be supplied based on individual component pricing. There is no extra charge to fit the motor. Other consumables such as tape or spline for fixing the skin to the tube is not included but can be purchased separately as required. If Head Box Only is selected the side channels and base bar are not supplied.

E.G.																		
2	2000	B		X		X			X				X					X

All Curtain Motors Carry A FIVE Year Replacement Guarantee.

SPECIFICATIONS:

Bend/Curved tracks available only in Clear Anodised.
All motors are capable of carrying 60kgs per motor and up to 90kgs when used in tandem. All motors are low voltage with in-built receivers. All motors can be operated by wired wall switch, wireless wall remote, hand held remote or home automation. Optima motors may be operated by hand during power failure. Top fitted tracks will have 40mm total deducted from the overall length to allow for access to switching controls.

Tracks over 5.0m in length will be manufactured with one coupling joint.

Tracks over 10.0m in length will be manufactured with two coupling joints. Any additional joints requested will incur an extra charge of \$20.00. The cost of \$150.00 per bend/curve needs to be added to the Made to Measure track cost. When two bends are required a coupling joint is used between the two bends. The minimum radius for each bend is 500mm. A more gradual bend (radius > 1m) can also be requested.

Each bend decreases the load capacity of each motor by 10%. For tracks with a single bend/curve and that are under 4.0m total length, only one motor is required. For tracks 4.0m and above a second motor is required.

Diagrams required for each bent/curved track (see over). In addition to this, curved tracks require full template.
